CHRISTOPHER FAR CLOTH

Hospitality

Christopher Farr Cloth HOSPITALITY

Our Story

Since its inception in 2000, Cloth has been synonymous with the finest materials, traditional techniques, and collaborations with global artists and designers. Rooted in a commitment to artistry and craftsmanship, our collection of fabrics, wallcoverings, and trims redefine hospitality interiors.

We collaborate with trusted, long-term partners chosen for their expertise and innovation, upholding our unwavering commitment to the highest quality. Crafted to meet the discerning demands of hotels, restaurants, and public spaces, our offering seamlessly blends high performance and durability with enduring style.

Our palette of instantly recognisable hues serves as a unifying thread, weaving together the creativity of diverse artists. Each design emerges from a vibrant exchange of ideas, drawing inspiration from archival works by 20th-century masters and contemporary visionaries alike.

Performance Prints

SUITABLE FOR INDOOR AND OUTDOOR USE

Discover our extensive range of high-quality performance prints, crafted using advanced dye sublimation printing. This innovative technique avoids using water as a medium to transfer dye, relying instead on heat to transfer ink to fabric. This method not only minimises water consumption but also ensures maximum ink penetration deep into the fibres rather than sitting on the surface. With a lightfastness rating of 5-7 out of 8, a remarkable rub count of 40,000, and flame-retardant properties meeting worldwide specifications, our performance prints are tailor-made for hospitality and contract projects.

Engineered to resist water and mould at a molecular level, our fabrics offer unparalleled protection against the elements. Used in esteemed projects such as the Finolhu Seaside Collection in the Maldives and Kisawa Sanctuary in Mozambique.

Performace Weaves

SUITABLE FOR INDOOR AND OUTDOOR USE

In our performance range, our focus is on providing technically superior fabrics that redefine indoor outdoor living. Backed by an industry-leading no-fade guarantee, our 100% solution-dyed acrylic fabrics ensure lasting beauty for years to come. From fade resistance to mildew and mould resistance, bleach cleanability and easy maintenance, our fabrics are engineered to withstand the rigours of hospitality environments.

Our performance weaves showcase a versatile collection of designs that can transform any environment. Perfect for everything from an elegant boutique restaurant to a high-traffic foyer, our fabrics strike the ideal balance between functionality, durability and aesthetic allure.

Indoor Weaves

Introducing our woven indoor fabrics, crafted in tradition, engineered for durability. Made in Belgium at a third generation weaving mill, our indoor weaves embody the timeless artistry and impeccable craftsmanship for which Belgian textiles are renowned. With each fabric reaching a minimum of 30,000 Martindale rubs, they are exceptionally durable, making them ideal for the demanding environments of hospitality spaces.

We understand the importance of safety and compliance in hospitality design, which is why our fabrics can be treated to different worldwide FR standards, ensuring they meet the requirements of any project.

Our indoor weaves offer a range of designs and textures that elevate any interior. Whether it's a boutique hotel or a bustling restaurant our fabrics provide the perfect balance of durability, functionality and aesthetic appeal.

Wallpaper

Experience the versatility of our designs with our custom wallpaper printing service, tailored specifically for hospitality use. Available in both Type I or Type II, our vinyl wallpapers offer durability to suit high-traffic areas.

As sustainability initiatives take centre stage in design development, we are excited to introduce an eco-friendly PVC free vinyl to our custom offering, providing an environmentally conscious choice without compromising on quality or performance.

Our designs can be printed up to a width of 120CM, ensuring seamless coverage for any space. Additionally, our vinyl wallpapers meet UK and USA FR standards guaranteeing safety and compliance for your project.

Performance Passementerie

Explore our performance trims, crafted at a historic British factory with origins dating back to 1803, where this esteemed establishment pioneered the production of silk sewing threads and lace for the fashion industry.

Featuring SunPRO® Recycled Polyester (GRS Certified) yarns, our performance trims offer unparalleled durability for both indoor and outdoor applications. Boasting antimicrobial properties, bleach cleanability and high pilling resistance. With a Martindale count of 50,000 rubs and UV resistance exceeding 2000 lightfast hours, offering unmatched longevity and resilience against the elements.

We understand that every project is unique, which is why we offer custom colour options for our trims to complement your design scheme.

Custom Capabilities

At Christopher Farr Cloth, our custom order service lies at the heart of our commitment to creative expression. We embrace experimentation in both hand printing and digital production. Our projects range from designing bespoke fabrics and wallpapers in collaboration with our clients that are site-specific, to commissions involving the alteration of colours and substrates in our existing designs.

We thrive on creative conversations and love to be challenged, this combined with our intimate knowledge of colour and printing allows us to tackle almost any customisation project. Adapting a design allows you to add a unique and memorable element to your project and ensures each fabric in your scheme is working in harmony to create a striking interior.

Play With Colours

We can alter the colours of our printed fabrics and wallpapers to adapt them for a particular scheme. We require guidance on colour from any source, such as fabric cutting, pantone or paint swatch references. Custom submittal forms for each design can be provided upon request to aid with colour placement.

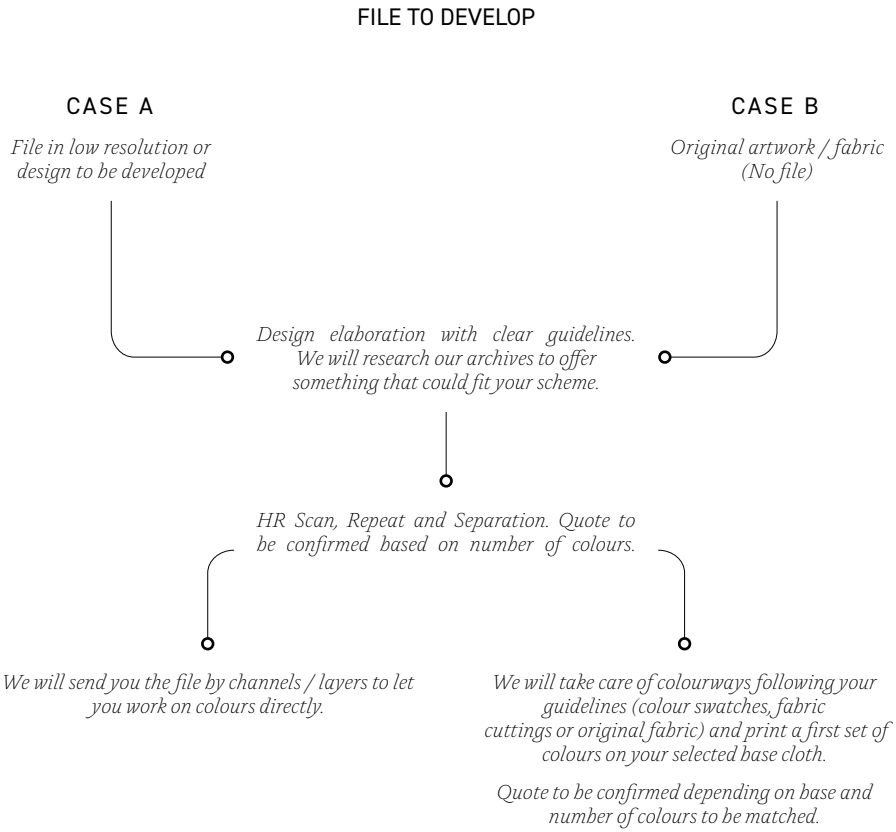
Base Qualities

In addition to special colourways we can also print on a range of different base cloths. Whether we are printing onto a more durable linen or cotton for upholstery, Trevira or vinyl wallpaper for flame retardancy, polyester for outdoor use, we apply the same care and attention.

Create Your Own Design

Our bespoke capabilities are not limited to our own collection of patterns. We have an archive of designs that can be explored to meet any given brief.

We can work from your own artwork or inspiration images; whether you are looking to create a bespoke stripe, plaid, floral or geometric pattern, we can find a way to bring your vision to life.



CASE C - File provided by the customer

Requirements:
- High Res 300DPI Scale 1:1/1:2
- Matching Repeat
- Layers or channels separation
- Colour swatches or any reference such as fabric cutting or original artwork to match

Introducing Our Hospitality & Contract Base Cloths

We have carefully curated a range of fabric and wallpaper bases designed to meet the diverse needs of the hospitality industry. From luxury hotels and restaurants to outdoor terraces and public spaces, our collection combines design, durability, and functionality in every material.

Our collection includes double-width sheers, blackout drapery fabrics, plush velvets, elegant faux silks, and double-sided print grounds, giving designers the flexibility to create both subtle elegance and striking impact. For specialty applications, we offer awning-grade fabrics, high-performance outdoor acrylics, recycled polyesters and a range of PVC-free Type II wallpapers - combining sustainability with premium performance.

This collection of grounds enables you to print any of our signature designs onto high-specification fabrics and wallpapers, expanding creative possibilities without compromise.

With a versatile palette of textures, weights, and finishes, our Hospitality & Contract collection provides the ultimate toolkit for designers to create spaces that are both functional and inspiring.
